Grafton Notch Park Plans Explained

The proposed State Park at Grafton Notch will be "Number One" on the State Park Commission's acquisition program to be submitted to the State Legislature in 1963 according to Park Director Lawrence Stuart, who spoke at the Fourth Annual Meeting of the Bethel Area Development Corporation on Tuesday, Feb. 13. In addition to a discussion of preliminary plans for this substantial potential boost to the economy of the area, Mr. Stuart presented an interesting talk on the work of the Commission with colored slide pictures of existing developments in the Pine Tree State.

Following an excellent dinner served by the ladies of the West Parish Church, the members and guests of the Corporation heard the Annual Reports of the Officers and elected Roger C. Luce as a new member of the Board of Directors for a term of three years. Re-elected for the same period were Howard W. Cole, Hon. Henry H. Hastings, Dexter M. Stowell, and Murray W. Thurston.

At a brief Directors' Meeting, following the general session,

Charles E. Heywood was elected President of the Corporation for the coming year, Richard L. Davis, Vice President; Edmond J. Vachon, Treasurer, and Guy P. Butler, Secretary. The new President, who succeeds Addison C. Saunders, was authorized to appoint the standing committees, and stated that an announcement would be made in the near future regarding his selections.

Mr. Stuart's announcement of the Park Commission's attitude towards the Grafton proposal was joyfully received by many present who have devoted a considerable amount of time and effort to the idea during the past few years, not the least of which has been the B. A. D. C.'s own Special Committee headed by Dexter M. Stowell of Bethel. It was pointed out by Mr. Stuart and others, however, that much work remains to be done by all interested parties before the Park can become a reality, and it is quite possible that the furtherance of this project will become a major activity of the B. A. D. C. during the next few years.

W. Paris to Vote on Dissolving Corporation

The citizens of West Paris at their annual town meeting on March 6, will vote on the following question: "Shall an act relating to the West Paris Village Corporation, passed by the 100th Legislature, be accepted?"

This act specifies that all valid contracts, obligations and liabilities of said West Paris Village Corporation, except those pertaining to a public water system, shall be assumed

and executed by the town of West Paris.

This act shall take effect immediately upon its acceptance by a majority of the legal voters at said meeting; provided, however, that the total number of votes cast for and against the acceptance of this act equals or exceeds 20% of the total number of votes cast for all candidates for Governor at the next previous gubernatorial election.

If accepted, this would mean the town would assume all obligations for street lighting, hydrant rental, maintenance of the fire department etc.

Final Game of Season Here Friday

Although the Huskies have dropped three out of the last four games, they have been playing fine ball and have given fans some thrilling games these past weeks. The Notre Dame game will be the last chance for Bethel fans to see the team in action. If Coach Taylor's squad continues to improve in play it could be a win for the Academy Five. The two J.V. teams will start action at 6:30, with the Varsity beginning about 8:00 p. m.

Rafael Gutierrez, a senior, is a winner in the Voice of Democracy contest. His tape recorded script has been sent on for further judging. The top winner in each state will receive a trip to Washington for the national awards ceremonies. National winners will be announced and will receive college scholarships.

GOULD ACADEMY

Gould Drops Double Overtime Game 59-55

Gould met defeat at Mexico Tuesday night in another thriller—this time it took two overtime periods to settle the issue. The Huskies led most of the way—15-12 at the end of the first period; 29-19 at the half. Going into the fourth quarter Gould still maintained a 4 point edge, but the Pintos caught up at 49 all before the bell sounded.

In the first overtime both teams scored 4 points to make it 53-53. The second three minute overtime settled the issue in favor of the 1962 Western Maine Conference champions, who need this victory to settle the pennant.

GOULD SENIOR PLAY ROUNDING INTO SHAPE

With twice-a-day rehearsals on regular school days and morning and afternoon get-togethers on Saturday, with an additional run-through on Sunday afternoons, the Gould Senior Play, "Ask Any Girl," has already roughed out the first two acts and is well into the final episodes of this fast-moving comedy. Centered around the advertising business, and especially the firm of Doughton and Doughton, which is testing the market's reaction to filtered flavored cigarettes (spearmint, anise, and Essence of Rose!), the play has all the essential qualities to make it one of the Academy's most entertaining productions.

Al Blunt's ability in comic roles is much in evidence, as is that of Cheryl Douglass and Beth Brown as a couple of personkitty maiden aunts. Tim Brooks is developing the part of the younger member of the

GOULD SENIOR FINALIST IN NATIONAL MERIT SCHOLARSHIP PROGRAM

Anthony D. Moulton

Headmaster Edmond J. Vachon of Gould Academy is pleased to announce that Anthony D. Moulton, a senior at the Academy, has been named a finalist in the 1962 National Merit Scholarship program.

This honor is won by fewer than 10,000—about one-half of one percent of the secondary school seniors in the nation.

From this group of finalist will be chosen the Merit Scholars of 1962. This process of selection is now under way.

Public announcement of the winners will be made about April 26.

The specific purpose of the merit program is to aid especially able young people to obtain a college education. There are three principal ways in which this is done: Merit Scholarship Awards, by encouraging other scholarship programs to utilize National Merit's information and services, and by distributing the names of high-scoring students to colleges and other sources of scholarships and financial aid.

Tony has spent two years as a boarding student at Gould. He has participated in the following: Outing Club (4), Hiking (3, 4), Skiing (recreation) (3, 4), French Club (3, 4), President (4). He is the son of Mr. and Mrs. H. F. Friedman, Jr., of Palermo, Maine.

Doughton firm with its sometimes-serious overtones. Elizabeth Waldron as the mother of Meg, who seeks a career in New York, is suitably matronly and mature. Peg Nelson, new to Gould this year, represents the private secretary type, self-sufficient and knowledgeable in the ways of business offices, while Carol Young, who has contributed much to skits and one-act plays in her years at the Academy, is hilarious as an Iowa girl reminiscing about those heaping plates of chicken and raised biscuits back home, far from the bright lights of Broadway.

Andover High School Science Fair: Julie Akers, winner, right; Penelope Poor, honorable mention, center; Tamara Emerson, left.

AMATEUR SHOW SUCCESS

The Bethel Jaycees would like, at this time, to thank our master of ceremonies, Charles Heino; our judges, Mrs. Louise Lincoln, Harold Bean and Theodore Chadbourne, for a job well done. We would also like to thank our many fine contestants and their teachers for making our show possible. Let us not forget the more than 200 people who came out of their warm living rooms to brave the stormy weather and show the young folks who performed that they are interested in the young people of our community.

The show was a great success with Dwight Lerd and Linda Paine being awarded "best in show" prize; Donnie Nowlin, "second best musical"; Sally Rice, Cindy Brooks, Mike Christien, Bobby Tift, "best dance team"; Geneva Bean and Michele Farrar, tie for "best single dance"; Mary Ellen Andrews, "best little folks dance."

All the following contestants were awarded a silver dollar each for their fine performances: Roberta Croteau, Linda Sue Buck, Lisa Farrar, Wayne Davis, Doug Farrar, Paul House, Donna and Arvid Rosenberg, Charlene Mills, Martha Laws, Kathy Kittredge, Nancy Chapin, Allan Swan, Bonnie Mills, Pam Heino, Brian Buck, Leah Swain, Susan Hutchins, Tommy Coolidge, Linda Lord, Sue Wheeler, Beth Elenor and Becky Andrews, Philip House, and Jackie Brooks.

SCHOLARSHIP PRIZES SET FOR MISS OXFORD COUNTY PAGEANT

Cash scholarships amounting to \$325, as well as other prizes to the value of \$275 have been approved by the general Miss Oxford County committee of the Bethel Jaycees.

This year's Pageant promises to outdo last year's Pageant, which was acclaimed as the best overall Miss America Preliminary in the State in the past two years.

Judges have been secured by the judges committee and the setting for the luncheon preceding the Pageant has been arranged. At the luncheon which is a very important part of the judging activities, the contestants will meet with the judges on informal terms.

Several aspirants have already submitted their application forms, but entries chairman, Ted Chadbourne, wishes to assure all that the door is wide open for any girl in Oxford County who meets the following qualifications to enter the pageant: (1) she must be a resident of Oxford County or attending a school in Oxford County; (2) she must be single and never been married; (3) contestant must be between the ages of 18 and 28 years on September 1 of this year, and a high school graduate at that time; (4) contestant must be of good character and possess talent, poise, personality, charm and beauty; (5) contestant must display in a three minute routine, talent. This talent may be singing, dancing, playing a musical instrument, a dramatic reading, etc., or she may give a three minute talk on the career she wishes to pursue.

CARD OF THANKS

It would be impossible for me to thank each one individually for all the nice things that were done for me during my illness, so am hoping this will express a little of my gratitude, at least it may help each and everyone to understand how my courage was kept up during the seige.

My first thoughts go out to the members of my family who visited me everyday, to the W. S. C. S. for their Sunshine Box and flowers, also the flowers from the Purity Chapter, O. E. S., Sunset Rebekah Lodge, Grand Temple Pythian Sisters of Maine, Bear River Grange, (Sunshine Box), gifts from Mishemokwa Temple, State Past Chiefs Association of Pythian Sisters, Sunshine Box from the Farrar children, and the many cards from Pythian Sister Temples throughout the State and from my many friends, also the visits by so many.

I am indeed very grateful for everything and may God bless you all for your thoughtfulness.

Butane boils and bubbles even though beaker is filled with ice cubes. It is rapidly turning into vapor—the way boiling water turns into steam. Butane's ability to vaporize at low temperatures helps Super Shell gasoline give you quick starts in cold weather.

One of Super Shell's 9 ingredients can boil on ice. Helps your car start fast for top performance on coldest days.

EVEN in zero weather, a car in good mechanical condition should start in 3 or 4 seconds.

If it doesn't, could be that your gasoline isn't vaporizing fast enough. Winter can have that effect on gasoline.

Shell scientists take care of this problem by including an ingredient called Butane in Super Shell's 9-ingredient formula.

Butane can hardly wait to vaporize. It will even boil on ice and turn to vapor (see picture above). Fast vaporization, fast starts. It's that simple.

Note: in very cold weather, Super Shell gets an extra dose of Butane.

Quick-starting Butane is only one of Super Shell's cold-weather ingredients. There are three in all. Read how the other two can also help you when winter's doing its worst.

Pentane mix—for fast warm-ups

The Pentane mix in Super Shell's winter blend helps speed the "warm-up" process inside your engine. Pentane mix works

like kindling in a log fire. It ignites easily — gets everything going faster.

"Anti-icer" fights icing stalls

The third cold-weather ingredient in Super Shell's winter blend is an anti-icer.

Its job is to fight carburetor icing. This phenomenon can lead to sudden stalls when you least expect them.

Shell's "anti-icer" coats vital carburetor parts with a very thin chemical film. This film discourages critical ice buildup and cuts your chances of icing stalls.

How Super Shell's other ingredients help you get top performance

Now you know about three of the nine ingredients in today's Super Shell. Here's how the others help to give your car top performance.

TCP* additive helps restore the power that combustion deposits can take away.

"Cat-cracked" gasoline is for smooth, even power with a purr.

*Trademark for Shell's unique gasoline additive. Gasoline containing TCP is covered by U.S. Patent 2880212.

Alkylate helps control "high-speed knock"

Gum preventive helps keep carburetors clean inside.

Anti-knock mix gives extra resistance to knock.

Platformate is for extra mileage.

P.S. When you drive in for a tankful of Super Shell, ask your Shell dealer to check your anti-freeze. It's a small precaution, but it could save you a lot of trouble.

BULLETIN:
